# POWERLINE ADVERTISING

***Online Programs are getting more and more complicated! Powerline Advertising is SIMPLE...purchase advertising and receive rewards!***

[www.powerlineadvertising.com](http://www.powerlineadvertising.com)

# Powerline Advertising has 5 types of advertising products to help you build any online business

## • How It Works •

### Powerline Advertising

Our Program is simple! When you purchase Ad Packs you receive a position in the Powerline. Each position cost \$.50. When it matures you are rewarded \$1.

The top 500 positions of the Powerline will always be displayed to see where you stand in the line.

### There are two ways for a position to mature

1

You can wait and let it reach the top of the Powerline

2

Share Powerline Advertising with others & earn commissions that will mature positions.

# The Powerline will always be moving, pushing your positions closer to the top.

Each member must start with an Ad Pack Subscription for \$20. This pays the sponsor a \$5 referral Bonus and gives the member a Powerline position each day for 30 days.

At the end of 30 days the member must maintain a balance in their account to auto purchase a new position each day for \$0.50

Once you purchase a subscription, you now have the opportunity to purchase additional advertising packs at just \$5.00 per ad pack.

**Each advertising pack will give 10 new positions into the Powerline.**

**All members can purchase up to 20 ad packages per purchase.**

**There is no limit to how many packs one can purchase**

**POWERLINE**  
ADVERTISING

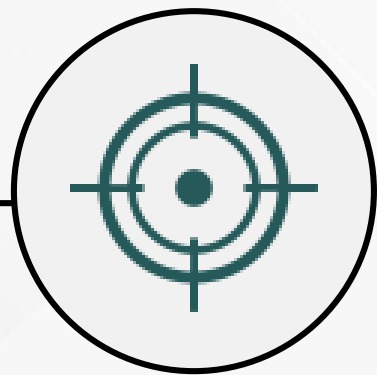

### **We guarantee your ads**

Will get plenty of views and above average clicks. The member is required to log into their account at least once each day do just two things.

**Click on two banner ads**

**Click on two text ads.**

Additionally, members will receive advertising credits if they open and read a solo ad.

### **Individual Ad Pack**

Positions will be available for purchase. However, the purchase of individual positions does not replace the requirement to maintain an active subscription.

## ***Ad Pack Subscription***

There is an incentive to keep the Ad Pack Subscription active and to click the required four ads each day.

If a member fails to click the required four ads each day all Powerline positions they own will move down one position in the line each 24 hours.

If a member lets their subscription expire each Powerline position they own will move down one position each hour.

# There are four ranks at Powerline Advertising at each rank your commissions increase.

**Basic: less than 2 active referrals 5%**

**Silver: 2 - 4 active referrals 10%**

**Gold: 5 - 9 active referrals 15%**

**Platinum: 10+ active referrals 20%**

Commissions earned will mature your poweline positions, from oldest to newest. If you do not have active positions the system will purchase you a Powerline position from your referral commissions and then mature it from the commissions earned

# The Powerline Works like this:

The First member will purchase a position. Their \$0.50 goes into the Powerline, minus the referral commissions paid to his sponsor

When the 2nd member comes in, the same thing happens. Their \$0.50 minus referral commissions goes into the Powerline and adds both amounts to the first persons position. This creates an accumulative pool for member #1 Ad Pack to mature.

Assuming \$0.40 went in from the first two people. There is now \$0.80 sitting in the pool for member #1 Ad Pack to mature. Now the third member purchases a position. This adds another \$0.40 to the pool making it a total of \$1.20 in the pool for member #1 Ad Pack to mature.

# The Powerline Works like this:

—

\$1.00 is now paid to Member #1 and \$0.20 is added to the pool to start the begin maturing the position of member #2. This is a very simple illustration, some members will purchase dozens of Ad Packs, some hundreds and some may even purchase thousands!

And remember every member will purchase at least one new position each day with our daily subscription model creating endless cycling.

### **Advertising Credits from each purchase!**

You will earn advertising credits from each Ad Pack purchased. Each \$0.50 position will give you 50 credits

All banner ads, text ads and solo ads will have their own credit value in which you can redeem your credits and use the advertising.

### **Sustainability is the key to any great system!**

When a member purchase an Ad pack, their sponsor will receive a percentage based upon their rank at the time of the purchase.

Each referral commission earned will go towards the sponsors oldest position and mature the Ad Pack even before it gets the top of the powerline.

## Let's take a look at a quick example!

Let's take member #1 again. He has 10 positions in the powerline and has 4 upgraded referrals in the program. This gives him an active rank of Silver and he earns 10% referral commissions from his referrals.

Let's now say all 4 members purchase 10 positions for \$5.  
 $10 \text{ positions} \times 4 \text{ members} = 40 \text{ positions}$   
 $40 \text{ positions} \times \$0.50 \times 10\% = \$2$

This will now mature this members 2 oldest positions before they ever get to the top of the powerline.

Yes, members can mature their Ad Packs quickly using their referrals commission to directly mature Ad Pack regardless of their position in the Powerline. Once a referral commission is paid, it goes into a special referral wallet.

Our system will now see how many positions have matured from these commissions and check to make sure there are still positions in the Powerline for member #1.

If there are not any active positions for member #1 and they have remaining funds in their special referral wallet

our system will purchase 1 position for the member and then immediately mature this position providing they have available funds.
